How to create personalized lucky earrings?

Want to create a luminous, symbolic and unique piece of jewelry? This tutorial invites you to create a pair of asymmetrical dangling ear rings in a refined, modern style. This delicate creation combines crystals, gold chains and lucky charms chosen for their significance and brilliance. This jewel is part of the Les Oracles collection, a series of creations that celebrate inspiring symbols for everyday wear, to add a touch of meaning and light to your outfits.

Every detail of this DIY has been thought out to sublimate the beauty of handmade: Dark Orange-colored PureCrystal drops catch the light like autumn reflections, while smoky faceted beads and gold chains add lightness and fluidity. The symbolic charms - clover and heart - combine harmoniously to create a jewel that conveys meaning and positive energy.

Accessible even to beginners, this step-by-step tutorial shows you how to assemble your elements, balance volumes and compose your own harmonies of shapes and colors. The aim: to give you the freedom to create a piece of jewelry in your own image, unique and full of positive intentions.

Because there's no one way to shine, personalization is infinite. Vary the symbols, shades, lengths or chains to suit your mood or style. You can also personalize the very base of your earrings by choosing from our wide selection of stainless steel hoop ear rings: change the size, the thickness of the wire or the finish for a more delicate, daring or minimalist look, as you wish.

These earrings can be worn alone or as an asymmetrical duo, for a touch of bold creativity. They're an elegant complement to your autumn outfits, adding that extra touch of soul that can only be found in handmade jewelry. Also check out our selection of stainless steel charms to imagine your own talismans, and share your creations on Instagram, TikTok or Facebook @PerlesAndCo - we can't wait to discover them!
