How to make a bracelet with a cord?

Looking for an easy-to-make piece of jewelry that's right up to date? This tutorial is for you! We'll show you how to create a simple but truly elegant bracelet, with a dark green cord and a small Fine gold plated spacer. The kind of jewelry you can make in minutes and never take off again.

Deep green is THE color of autumn. Natural, soothing, yet full of personality, it goes with everything: a sober outfit or a more colorful look. And when you combine it with the sparkle of fine gold, it gives a touch of understated chic that makes all the difference. Perfect for everyday wear, or even as a gift!

By the way, this bracelet is available in three other gorgeous colors: an ultra-chic topaz, an intense blue and a timeless black. You can choose your favorite... or go all out to match all your outfits! Just go to the "variation" tab at the bottom of the page to see the materials required for these colors.

There's nothing complicated about making them: no tricky clasps, no obscure techniques. Just a cord, a golden spacer, a few minutes to spare and a little elbow grease. Even if you're a complete beginner, you'll get the hang of it. It's proof that minimalist jewelry can be really stylish.

So, let's get started! And don't forget to share your creation on our social networks: Instagram, Facebook and Tiktok. We love to see what you're up to!

Which material to use for Green cord and spacer bracelet?

Quantity : 1

Jewel Glue Hasulith 30ml
Ref. : OUTIL-007
Quantity : 1

Mighty crimping pliers
Ref. : OUTIL-404
Quantity : 1

steps

★ Step 1/1

Pass a Crimp bead through the cord, then take the end of the other side of the spacer and pass it through the Crimp bead. The bead should close the loop. Using crush bead pliers, crush the bead in 2, then fold it over on itself and cover it with a crush bead cover. Do the same on the other side.
