*How to create a green bracelet for women?*

Our partner Les Perles par Puca invites you to discover a new tutorial for making a bracelet in keeping with the spirit of spring. This creation features a combination of green and gold colors, ideal to accompany the beautiful days and bring a touch of softness to your outfits.

At the heart of this jewel are FP Sélection's Snails beads, available in 10 colors. Their original shape, inspired by the snail, adds relief to your bracelet. These pearls go perfectly with Arcos pearls, also available in a wide range of colors. Don't hesitate to adapt the number of beads to the width of your wrist. The choice of colors offers the opportunity to customize to create a unique piece of jewelry that fully corresponds to your desires.

Subtle touches of gold illuminate the creation and add an elegant finish. This play of textures and reflections gives the bracelet a refined look.

This tutorial, dedicated to the beading technique, will guide you through the creation of this handmade jewel.

Whether you're a beginner or an advanced beader, you'll find it easy to follow the steps and enjoy creating your own bracelet.
