

COLORFUL & ASYMMETRICAL EARRINGS

By : Mathilde Perles & Co

Easy

20 minutes

How to use the One step looper to make a pair of earrings?

Add a touch of freshness and originality to your style with this pair of asymmetrical, colorful and delicately flowered DIY earrings. This step-by-step tutorial will guide you in the creation of unique jewelry, where shapes and shades harmonize while cultivating a pretty difference between each ear.

Ideal for lovers of modern, poetic creations, this model plays on asymmetry to create a dynamic visual effect full of personality. Brightly colored Preciosa glass beads blend with floral elements, all mounted on a stainless steel base. Accessible to beginners and more experienced designers alike, this tutorial is the perfect opportunity to express your creativity while learning new techniques. Whether for everyday wear or to enhance a special outfit, these earrings will quickly become a highlight of your handmade collection.

Ref. : OTL-580

Quantity : 1

Pliers to create loops One Step 1.5mm Looper x1

Ref. : OUTIL-931

Quantity : 1

steps

★ Step 1/5

First, make each part of your earring separately.

To make these parts, you'll need :

- 2 ball-headed studs
- 3 round-headed studs

Select the beads you wish to use. You can use the final earring photo for inspiration.

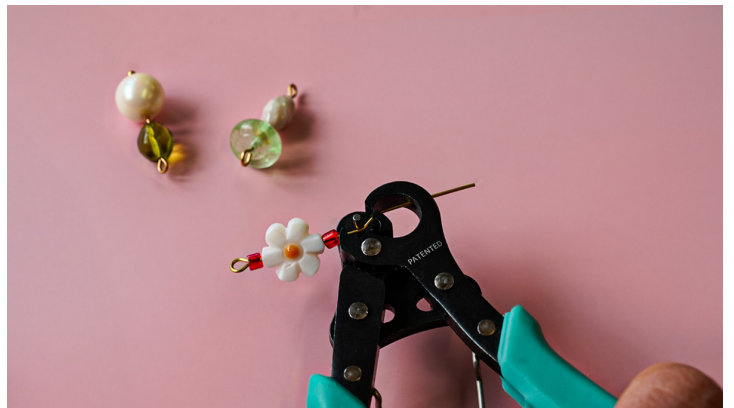

The Preciosa mix bags contain a variety of pearls. So you may not have exactly the same pearls as those shown in the tutorial. Don't hesitate to be creative: that's what will make your earrings UNIQUE!

★ Step 2/5

Use pliers to make a loop at the end of each nail.

For even curls, you can use One Step pliers. If you don't have any, round-tipped pliers work just as well.

★ Step 3/5

Once you've completed all the segments of your earring, you can move on to assembly.

Slightly open the rings with a pair of pliers, then join the individual segments together.

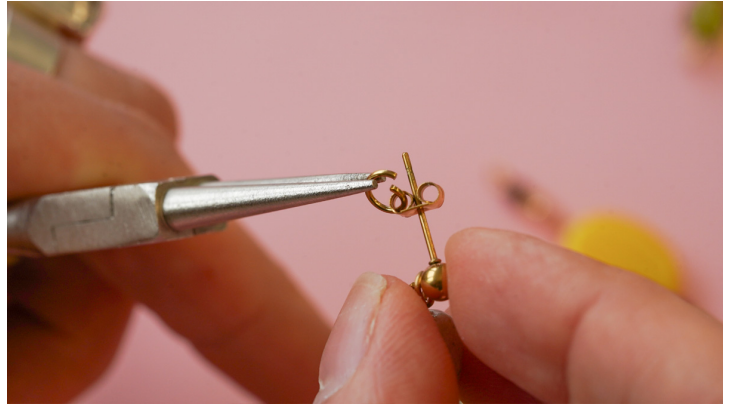

Insert the last segment onto the open ring of the earring.

Finally, carefully close all the rings with the pliers to secure the whole assembly and guarantee a good fit.

★ Step 4/5

Add an open ring to your plunger

★ Step 5/5

Connect the last two segments to the push-button of your ear stud, ensuring that the ball-head stud is at the bottom.

Your first earring is now complete.

Repeat the same steps to make the second earring.

Note: you may not find exactly the same beads in your assortment for the second earring. The key is to ensure that the colors of the two earrings match to form a well-balanced pair.
