How to use Paper Poetry Metallic Transfer Sheets?

How to make original cards and personalized?

You organize a birthday snack, a party or you wish to send your wishes, send a card to your loved ones, here is a tutorial that will explain you step by step how to make personalized cards and original with the transfer paper metallized. Very easy to use, these leaves gives a very nice shiny effect. Find the [beautiful range of current colors](#) to use with the appropriate glue pen.

[Download the drawing board created](#) by Delphine from the [Dream Cardboard blog](#) . You will find a birthday cake, a shell, a cup of coffee and a cactus.

#### STEP 1

Decode the drawings and transfer to the map. Then, go back to the black pen.

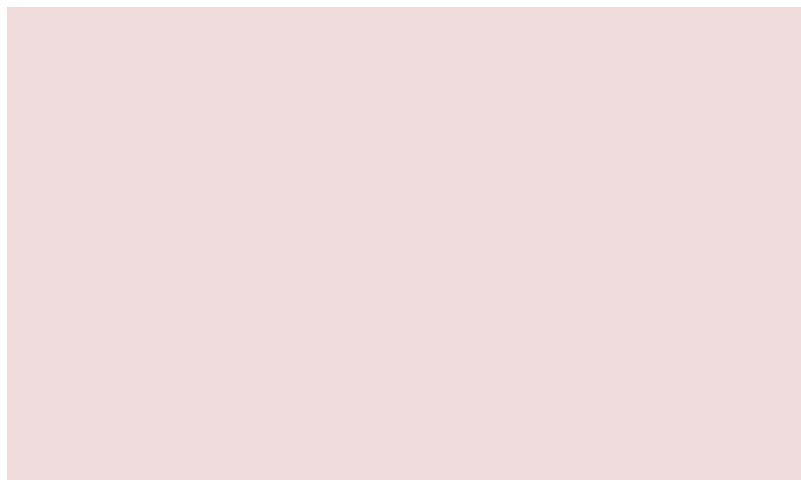

## 2ND STEP

Shake the glue pen well and apply to the details you want to metalize. Let the glue dry.

### STEP 3

Place the transfer sheet with the silver matte side toward the drawing.

Then, gently press on the glued parts with your fingers or a soft cloth. Leave some time.

Then carefully remove the transfer sheet, going very slowly.

#### STEP 4

Keep decorating your card with markers, stickers ... all the decorative elements you want.

And here you have to create custom maps!
