How to create a woman's jewelry set?

Our partner Les Créations d'Anna invites you to discover a new tutorial featuring an elegant necklace and matching earrings. This model is ideal for adding a refined touch to your outfits, especially for a special evening.

Helios pearls from the Transparent Constellation collection take center stage. Available in a range of colors, these pearls capture the light thanks to their transparency and glitter. They combine perfectly with FP Sélection's Daggers pearls, also available in different shades, to create a play of shapes that makes the set original. This combination of pearls highlights contrasts and gives the necklace and earrings a modern jewelry look.

The set plays on shades of burgundy and gold, colors that evoke elegance. The rather imposing necklace is a true creation, while the dangling earrings perfectly complement the ensemble, creating a harmonious balance. These accessories are perfect for enhancing an evening outfit.

This tutorial is for beginners and DIY jewelry enthusiasts alike. You'll find all the steps you need to follow to create your jewelry set. Don't hesitate to adapt the number of beads to suit your needs.
