steps

★ Step 1/5

Step 1: Attaching the lobster clasp

Cut 20 cm (approx.) of nylon thread.

Slide a squeeze bead onto one end, then add the lobster clasp. Pass the thread back through the squeeze bead to form a loop around the clasp.

Using crush pearl pliers, firmly crush the pearl to lock the clasp in place.

For a more polished finish, place a crush pearl cover around the crushed pearl to conceal it and create a more aesthetically pleasing finish.

If this is your first time using crushable pearls, don't hesitate to consult our technical data sheet: [Making beautiful finishes with crushable pearls.](#)

Do this 3 times for each bracelet.

★ Step 2/5

Step 2: Prepare your beads

Lay all your beads out in front of you to imagine your color and shape combinations.

This step allows you to visualize the final result and prepare the composition of each of your bracelets before threading.
