How to make flower-shaped dangling earrings?

Our partner [Les perles par Puca](#) offers a tutorial on how to make flower-shaped dangling earrings. This model features a floral design ideal for adding a springtime touch to any outfit.

This tutorial features the new [Athos three-hole](#) beads, specially designed for easy assembly and a structured finish. Thanks to their unique shape, they make it easy to create a pretty flower arrangement, with volume and finesse. These beads open up a wealth of creative possibilities, whether you're a beginner or already a DIY jewelry enthusiast.

Athos beads are available in five new colors: violet, turquoise, taupe, emerald and peach. This varied palette lets you personalize your earrings to suit your taste and style. You can opt for soft, natural hues or, on the contrary, choose brighter colors for a bold look.

These pearls combine perfectly with the [Flowers Duo pendant](#), giving you the opportunity to create a complete and harmonious set. The corresponding diagram is also available to guide you through the process.

To accompany you, download the detailed [Nora® Earrings](#) diagram . You'll be able to easily follow the different steps and reproduce this model at home with complete peace of mind.
