

MULTI-COLORED BRACELET WITH GLASS, STEEL AND CERAMIC BEADS

By : Laurence Perles & Co

Easy

25 minutes

How to make a multicolored pearl bracelet?

A colorful piece of handcrafted jewelry that takes less than 30 minutes to make!

This bracelet from the Perles & Pop collection combines a variety of materials and shades for a trendy, original look that's fully customizable with your favorite charms.

This bracelet is a veritable explosion of color! Inspired by Mediterranean markets and summer evenings, it combines millefiori pearls with floral motifs, gilded stainless steel pearls and charms, and a hand-painted porcelain heart pearl.

A cheerful, light, easy-to-wear accessory to match all your summer outfits.

You can personalize it endlessly by selecting other steel charms, millefiori glass beads or ceramics.

If you reproduce this tutorial, don't hesitate to share your jewelry on social networks by tagging our Instagram account, our TikTok account or our Facebook page. We'd love to see what you come up with!

Which material to use for Multi-colored bracelet with glass, steel and ceramic beads?

 Ref. : STL-624
 Quantity : 1

SUPPLIES

Kit of 3 Pliers professional quality for jewelry - Chain nose pliers, Cutting pliers, Round nose pliers
 Ref. : OTL-580
 Quantity : 1

steps

★ Step 1/7

Cut approx. 25 cm of wire, thread with a crush bead. Pass the wire protection through the last ring of the extension chain.

★ Step 2/7

Thread the wire through the wire guard and then through the squeeze bead. Crush the bead using flat-nose pliers or crush-bead pliers.

★ Step 3/7

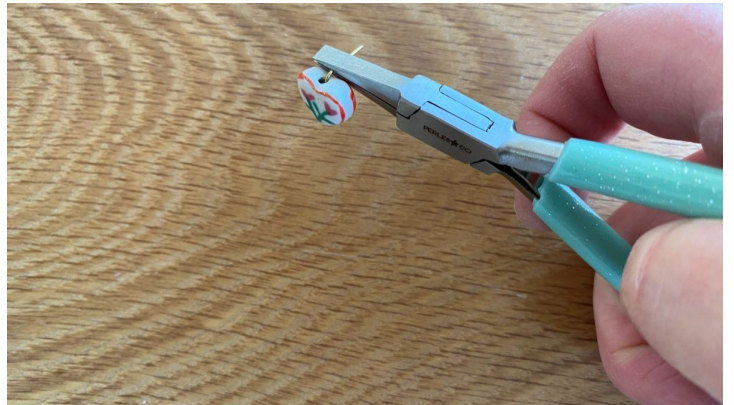

Add an open ring to the palm and bird charms. Close the ring using 2 flat clips. Here's an instruction sheet on how to open and close an open ring.

★ Step 4/7

Thread a gold rocaille and ceramic heart bead onto a flat-headed nail. Bend the nail at right angles using flat-nose pliers.

We used an 8/0 seed bead, but you can also use any other gold bead you have in stock.

★ Step 5/7

Form a loop on the nail using round pliers, turning your wrist gently so that the nail wraps around the pliers without damaging the top of the ceramic bead. You can also watch this video to learn how to form a loop on a nail.

★ Step 6/7

String the beads, alternating gold rondelles, millefiori cubes, ceramic rounds and charms.

Here's how to reproduce the bracelet exactly: thread a 5 mm striated flattened round bead, a blue millefiori cube, a 6x3 mm heishi round bead in gilded steel, a yellow millefiori cube, a 6 mm flower round bead in gilded steel, an 8 mm white/blue ceramic round bead, a 6x3 mm heishi round bead, a red millefiori cube, a 5 mm striated flattened round bead, the 10 mm blue glass flower pendant mounted on an open ring, a 5 mm flattened striated round bead, a 4x7 mm olive chevron bead in dark blue/red, an 8 mm flower bead in gold-plated stainless steel, a 4x7 mm olive chevron bead in dark blue/red, a 6 mm rondelle flower bead in gold-plated steel, the palm tree charm mounted on an open ring, a 6 mm rondelle flower bead in gold-plated steel, an 8 mm ceramic round bead in white/blue, a 6x3 mm rondelle heishi bead in gold-plated steel, a red millefiori cube, a heishi 6x3 mm rondelle bead in gilded steel, a yellow millefiori cube, a heishi 6x3 mm rondelle bead in gilded steel, the ceramic heart bead mounted on a nail, a heishi 6x3 mm rondelle bead in gilded steel, a blue millefiori cube, a 6 mm rondelle flower bead in gilded steel, a white/blue 8 mm ceramic round bead, a dark blue/red 4x7 mm olive chevron bead, the bird charm mounted on an open ring, a 4x7 mm dark blue/red olive chevron bead, a 6x3 mm heishi rondelle bead in gilded steel, a green millefiori cube, a 6x3 mm heishi rondelle bead in gilded steel, an 8 mm white/blue ceramic rondelle bead, a 6x3 mm heishi rondelle bead in gilded steel, a sky-blue millefiori cube and finally a 6x3 mm heishi rondelle bead in gilded steel.

★ Step 7/7

Once you've reached the desired length, thread a squeeze bead, pass the cord through a cord protector and then through the squeeze bead, pulling the cord so that the squeeze bead is as close as possible to the last bead. Tighten the crush bead with flat-nose pliers. Pass the wire through the last beads and cut. Hang an open ring on the wire guard, slip the clasp over it and close the ring.
