How to create a lemon bag jewel: easy summer DIY tutorial

Looking for a handmade accessory that smells like vacation? This lemon bag jewelry tutorial is just what you need. Simple to make, even if you're a beginner in jewelry design, it'll enable you to make a colorful, peppy bag grigri with lots of personality - the kind of little detail that's sure to attract compliments.

The principle is simple: assemble a few pearls, a lemon pendant and a "Dolce Vita" heart pendant, playing with a chain to create movement and an asymmetrical effect. The result is a light, summery look that immediately adds character to a wicker basket, canvas bag or even an everyday tote bag. There's no need for complicated equipment or advanced know-how: just a few steps and you've got a look that's sure to please.

What makes this DIY bag jewel so interesting is how easy it is to personalize. The lemon pendant sets the summer tone, but there's nothing to stop you changing to another bag jewel pendant, as you wish. You could, for example, replace the heart with another pendant with a message for a more graphic version, or multiply the chains for a fuller effect. The idea is to make each piece of bag jewelry unique, reflecting your style.

This tutorial is one of our creations designed for summer: accessible, quick to make and perfect for treating yourself or offering a handmade gift. Whether you're already adept at creating jewelry or you'd like to try it for the first time, this project is an ideal starting point.

Follow the steps below and let us guide you - it's time to create your summer accessory.

Ref. : STL-898
Quantity : 1

8mm Round beads assortment - Multicoloured marbled x30
Ref. : STQ-554
Quantity : 1

steps

★ Step 1/8

Cut 10cm of wire, thread a crush bead through it and then thread the wire back through the crush bead. Crush the bead using flat-nose pliers or crush-bead pliers.

Add a pearl cover, then close it gently with pliers to hide the crushed pearl.

If you need help, please consult our technical data sheet: [Creating beautiful finishes with crushable pearls.](#)

★ Step 2/8

First thread a striped bead (KRM-072), then add a Heishi washer (INO-575).

Then add a white bead from the assortment (STQ-554), then another washer, followed by a green bead and a washer again.

Repeat this sequence once.

★ Step 3/8

Thread a squeeze bead. Thread the wire through a wire guard, then back through the crush bead. Pull the wire so that the bead to be crushed is positioned as close as possible to the last bead, then tighten it with flat-nose pliers.

Pass the wire through the last beads before cutting off the excess.

If this is the first time you've used this technique, you can read more about it in this datasheet by [clicking here!](#)

★ Step 4/8

Add a ring, open it and attach the pearl thread to the chain.

★ Step 5/8

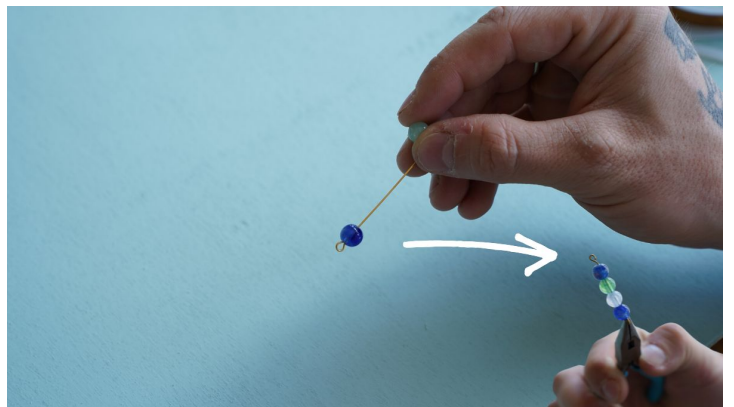

Then take a larger ring (ref: ACC-778) to attach the "Dolce Vita" pendant to the chain.

Finish by cutting off the excess chain with wire cutters.

★ Step 6/8

Take a round-headed nail, then string the beads in this order: one blue, one light blue, one green, then one blue again. Using pliers, form a loop by folding the nail over itself to create a small loop and secure the whole. If you're not comfortable with this step, you can consult our technical data sheet: [Forming a loop on a nail or jewelry pin.](#)

★ Step 7/8

Add a ring to the top of the stud and hook it onto the clasp. Then take the ring from the Dolce Vita pendant and attach it to the bottom of the nail.

★ Step 8/8

And now your bag jewelry is ready!
