How do I make a photo holder?

Discover a new tutorial for making a Nynphea® beaded flower, a creation that combines the world of handmade jewelry with creative hobbies. Made by our partner [Les perles par Puca®](#), this beautiful flower becomes an adorable magnetic photo holder, perfect for personalizing your home or offering a super-original handmade gift.

With this pattern, you'll learn how to use [Lipsi®](#), [Super-Kheops®](#) and [Arcos®](#) beads. All these beads are available in a range of colors, so you can adapt them to suit your home decor.

This project is for beading enthusiasts, creative DIY enthusiasts and fantasy designers. Once finished, your Fleur Nynphea® photo holder will showcase your mementos: postcards, photos or small messages. You can attach it to any magnetized object: fridge, metal frame, picture...

The tutorial allows you to use the flower in a variety of colors to create a harmonious decoration or a beaded tree of life (see diagram).

Create, personalize and let your imagination blossom with the Nynphea Flower!

Download the detailed diagram here: [Nynphea® photo holder by Puca®](#)

We also invite you to share your creations on Instagram with the hashtag #Perlesandco or on Facebook, to discover and showcase your work.

NB: Due to stock, some references shown in the tutorial may be replaced by equivalents.
