

HOOP EARRINGS WITH MINI PETALS

By : Carla Perles & Co

Easy

10 minutes

How do you make hoop earrings with flower petals?

Petal earrings are one of the hottest jewelry trends right now, and the good news is: they're super easy to make yourself! This tutorial shows you how to make a pair of hoop earrings adorned with mini petal-shaped sequins, for an elegant and refined look that looks like it came straight from a jewelry store.

This design uses stainless steel hoop earrings, an ideal material for jewelry: it doesn't tarnish, is hypoallergenic, and retains its shine over time. No more irritation or jewelry that turns green! It's the perfect choice for earrings you'll wear every day as well as for special occasions.

The petal sequins used here are 14 mm in size, creating a subtle and delicate look, perfect for a minimalist and chic style. But what's great about this type of design is that you can fully customize it to your liking. At Perles & Co, we offer petal sequins in several sizes: 14 mm, 17 mm, and 24 mm. As well as a wide range of colors. You can also pair them with different sizes of hoop earrings to vary the styles: discreet mini hoops for the office, larger hoops for a bold look, or even mix petal sizes for a cascading effect. The possibilities are endless, and each pair will be unique.

Assembly is quick and requires no special technical skills. Simply slide the petal sequins onto a ring, then slide that ring onto the hoop. And you're done. It's an ideal project for beginners in jewelry making or for those who want a stunning result in just a few minutes.

Once your hoop earrings are finished, share your creation on social media and tag us! We love seeing your creations and are happy to share them with the entire Perles & Co. community.

Which material to use for Hoop earrings with mini petals?

Ref. : INX-525
Quantity : 1

Curved flower petals 14x10.5 mm in resin - Pale yellow x8
Ref. : KSF-502
Quantity : 2

steps

Perles & Co Step 1/1

Use your two pairs of pliers to open an 8 mm ring, then thread the petals through in one direction and then the other. Here, I chose to put a whole bundle in each ring (so 8 petals), but you can use fewer.
