How to use Izink inks?

How to draw with inks?

Do you want to draw and test a new way of drawing? We propose you to use Izink inks which adapts to many media. You can make your cards, scrape, customize objects. This ink is covering, permanent, diluted with water or alcohol, resistant to UV and acid-free. Colors are miscible with each other to create new shades. Léa from the Rose Poudrée YouTube channel offers you a tutorial to make a drawing with these inks. She used the speed drawing technique and explains how to use Izink inks.

Which material to use for Draw with Izink colored inks?
