How to use the metal sheets to repel ?
How to create a crown of leaves with metal foils to repel ?

In wall decoration for the bedroom, the living room or any other room of the house, this crown of leaves will make its effect! A new DIY easy and achievable by everyone for a guaranteed success.

Step 1:

Form a circle with your thick copper wire . This circle will be your crown.

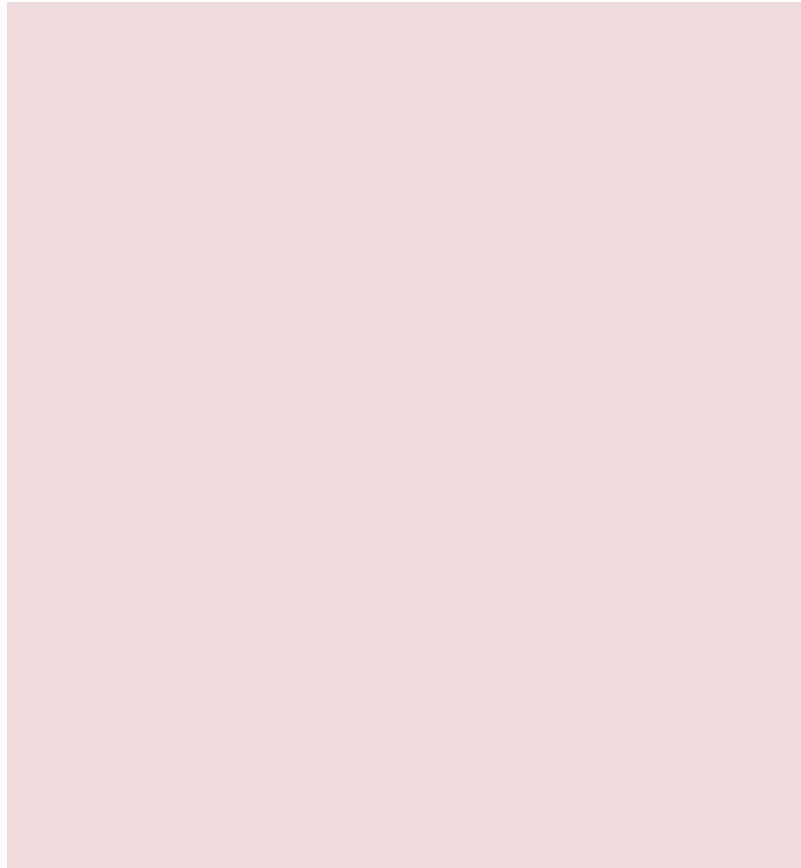

2nd step:

Cut out your foil- shaped foil sheets of different sizes.

The number depends on you, how many leaves do you want on your crown ?

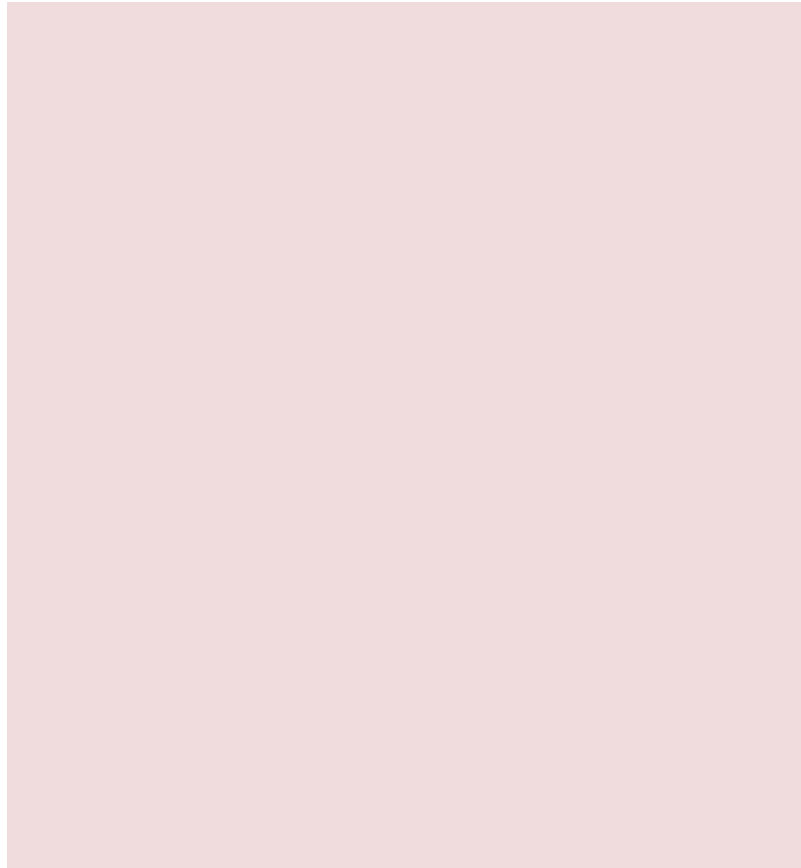

Step 3:

It is now time to compose your crown. It's up to you to add as many sheets as you like. To fix them, use your fine wire .

Your crown is ready to hang on your wall!
