How to customize a comb barrette?

Would you like to customize your comb in a chic and trendy way? We've got just the tutorial for you! Create this barrette comb to tie your hair up or hold it back in an elegant way. It's a real jewel that will enhance your hairstyle for an evening out or a festive New Year's Eve.

Here we've used PureCrystal pearly beads, PureCrystal 5500 pears, Cosmic PureCrystal 5523 beads, a few satin gold petal charms and some flower charms. It's up to you to change colors and finishes to suit your taste and style. This comb is also available in silver or transparent plastic.

Loyal readers of the magazine may recognize it... This is indeed one of the tutorials that appeared in the December 2017 issue of Prima magazine!

If you're looking for another barrette comb idea to customize, we suggest this comb with PureCrystal pearly beads and feathers and flowers in a slightly more bridal style.

We love to see what you're making with the tutorials on Perles & Co, so feel free to send us photos of your creations on our Facebook page or tag us on Instagram #perlesandco.
