How to mount an elastic gemstone bracelet?

How to assemble a gemstone elastic bracelet?

Fit a wrist strap easily with silicone thread . This tutorial is the port of the beginners in jewelry diy. This simple and trendy bracelet will give a touch of color to your style.

Step 1:

Cut a piece of silicone elastic wire about 20 cm long to get enough thread for the knot.

Step 2:

Make a first node that will be temporary to retain your pearls, the silicone thread does not allow to obtain a stable node. This will make it easier to remove the end.

Step 3:

Put on your pearls, alternate between colors. Pass a ring in your cowry shell and then close the ring and put it in the thread. Put the pompom close to the big black pearls to highlight it. The largest items are collected.

Step 4:

Close the bracelet using the surgeon's nudist. Please refer to the " how to make a bracelet with elastic thread " fact sheet.
