How to make a Miyuki weave in brick stitch for Easter?

Aurélié alias *Lili Azalée* has prepared an extremely cute Miyuki Brick Stitch weave : a little yellow chick. An easy DIY and kawaii (cute in Japanese) to prepare Easter! You can mount it on a brooch and wear it on a small spring vest. You can also use it to create a bookmark or weave several chicks to make place holders for your Easter table decoration.

For more information on Brick Stitch weaving , find our technical data sheets on bead weaving in the Toolbox section of the site.

Thank you Aurélié for sharing the grid.
