How to make easy earrings?

In this tutorial you will find a pair of easy to make earrings. We propose to work around triple pompoms, here we chose to take the shades of green but there is a large number of colors. The shell called cauri is also very trendy in all creations, its white brings freshness to your jewelry and gives them a small exotic side.
Step 1
Place a 7 mm ring in the hole of the lightest pompom. You can enlarge the hole first by passing through a needle. Pass the pineapple charm in this ring. Repeat this step for the second loop.

2nd step
Gently open the ear hook rings. Choose two seashells that are about the same size, pass the sharper end of the shell in the hook ring, close it. If the edge of your shell is too wide and you have trouble closing the ring either you have to change the shell, or you can break a small piece of the cowrie with a basic jewelry clip. Connect the ring of the triple pompom to the bottom of the shell, close your rings.

Step 3
Cut into a thin chain six lengths of about 4 cm, group them in threes by passing the last link of each of them in another ring of 7 mm. Take 20 cm of thread, no matter what color it will not show. Pass a needle and make a double knot at the end. Pass the needle through the ring and then back to iron the needle between the 2 threads to secure the thread to the ring.

Step 4
Go under the dark green pompom by removing the threads to prick with the needle in the middle, go back through the same pompom, fasten by making a double knot, cut the remaining thread and make your second loop. These earrings look like little vahine dancers you can not find?
