Here is a tutorial of geometric earrings easy to make in a short time. One of the current trends is to wear very very big jewelry often with geometric and clean forms. This jewel will not ask you any technique is what can be called pure assembly of primers. You can make them another color with for example a silver galvanization or golden pink.

### Step 1

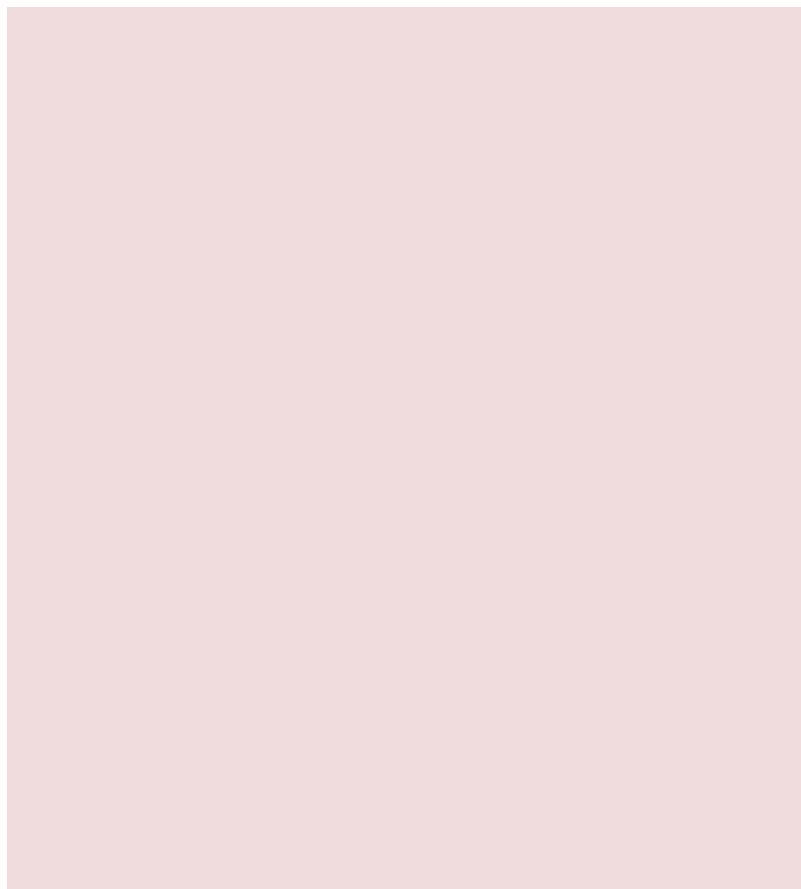

Take seven open rings, place them in the holes of the bridge-shaped primers. Connect the top bridge to the 2 lower decks.

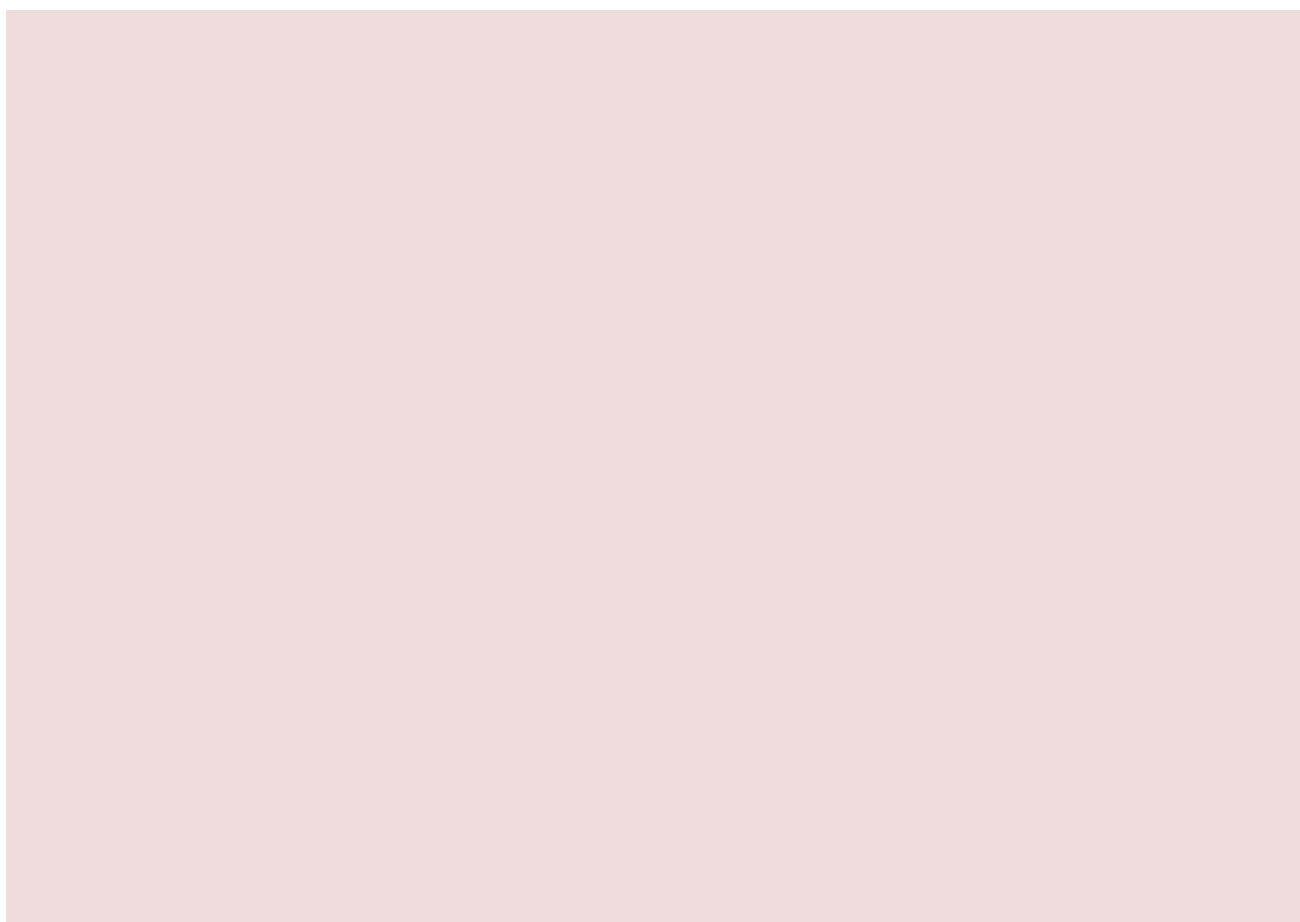

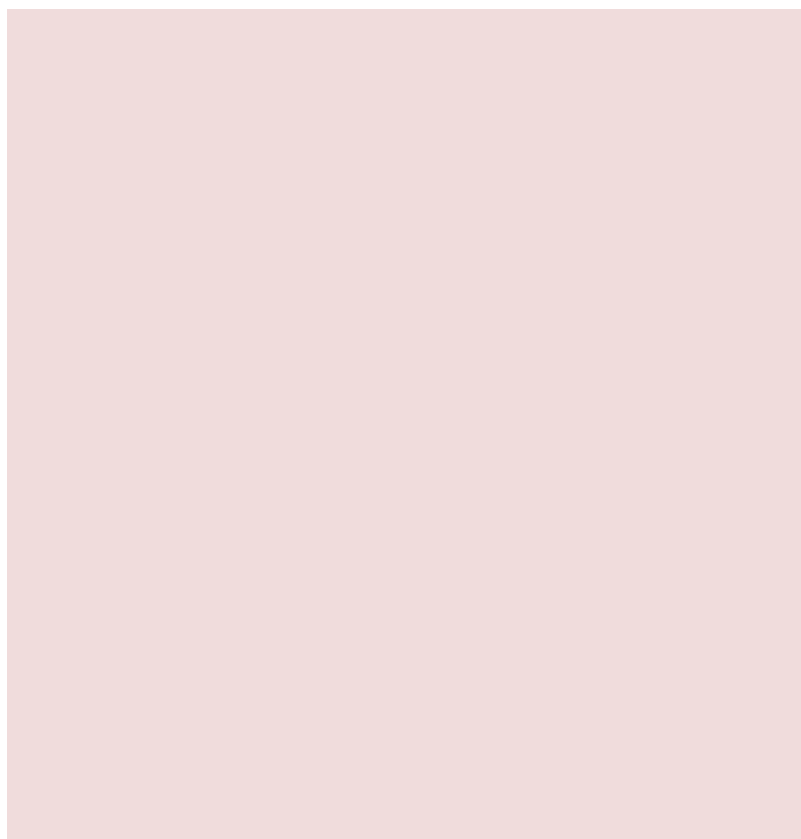

2nd step  
Throw in each ring a sequin shaped shuttle. Close all rings with pliers.

Step 3  
You have to fix the ear studs in the ring of the highest bridge.
