How to make a wrap bracelet ?

How to make a bracelet with a cauri shell ?

We're totally into it! The wrap bracelet is the trendiest accessory of the summer ! What if we used a cauri shell What if we used a bracelet wrap to close this multi-strand bracelet? You know that little shell from the Maldives that was used as a currency in Africa.

Symbol of femininity, the cauri shell is a real lucky charm. You do not have yours yet ? It is the moment to launch you!

Ultra simple to make, we explain in this DIY tutorial the technique of theleather wrap bracelet 5 turns with glassbeads and Miyuki beads for a bohemian chic look. This DIY bracelet will be with you all summer long!
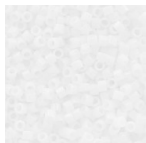

We love seeing your creations, so don't hesitate to send us your photos on our Facebook page or tag us on Instagram with #perlesandco!

Which material to use for Leather Wrap Bracelet Tuto 5 turns with a Cauri shell and Miyuki beads?
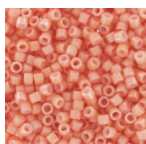

SUPPLIES

Set of half natural Puka shells x 10

Ref. : SP-363
Quantity : 1

Imitation hematite faceted round Mini-beads 4 mm Rose Gold x35 cm
Ref. : SP-675
Quantity : 1

steps

⭐ Step 1/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Thread the cord through the cauri shell, place it in the
middle and tie a knot.
<? endif; ?>

⭐ Step 2/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Take about 1.5m of fireline, fold it in half to double the
strength of the thread. Then pass it over the top cord as
it falls down.
<? endif; ?>

⭐ Step 3/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Thread a first bead, wedge it between the 2 cords, then
take the rest of the thread and pass it under the bottom
cord.
<? endif; ?>

⭐ Step 4/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Go over the bottom cord and pull the thread through the
bead.
<? endif; ?>

⭐ Step 5/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Pass the thread under the top bead and then repeat the
same threading technique for all the other beads,
avoiding tightening the thread too much and making sure
to keep a nice evenness. If the bead twists during
beading, adjust it as you go along and straighten it out.
<? endif; ?>

⭐ Step 6/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
On this model, we started with: the Shiny round beads,the
mini-hematites and the opaque white round beads. Then
we continued with the weaving of Miyuki beads. You
have to insert the Miyuki beads and then place them as
close as possible to the beads previously inserted. To do
this, use your thumb to get a perfect alignment. Follow
this weaving grid.
<? endif; ?>

⭐ Step 7/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Once your Miyuki bead weaving is finished, continue with
the Gold Stone gemstones called "Sunstone". String
these beads two by two. And finally, insert Miyuki 11/0
matte glazed banana beads.
<? endif; ?>

⭐ Step 8/8

<? if(isset($step['description']) &&
!empty($step['description'])): ?>
Make a knot with the leather cord, then another one a
little further, leaving enough length to pass the cauri
shell.
<? endif; ?>
