

CUSTOMIZE SUMMER LEATHER SHOES WITH WAX FABRIC

By : Karine Barrera

Easy

0 minutes

How to customize your shoes with fabric? Customize your summer sandals with ready fabric, the choice is difficult but we opted for blue. The colored fabric is edged with a gold bias but you can use other colors if you want a more contrasting style. You also have for customization a large choice of embroidered patterns and permanents they are long or balls.

Step 1
You only need a width of 10 cm to customize your shoes. Cut 2 strips of 16 cm long.

2nd step
Coat the top of your sandals with fabric glue evenly, there should be no gaps or material build up. Position your fabric on the glue, pass a flat object over the entire surface such as a thin ruler and flat. Remember to press the borders and to fit the fabric in the folds. Wait an hour then with a scalpel cut out the fabric that protrudes from the mules.

Step 3
Cut a length of 14 cm in the bias then another 19 cm. Cut these 2 parts in their middle to have 4 length, 2 for front and 2 others for back.

Step 4
Glue the strips at an angle and then push them on the edge of your sandal, holding the folds of the bias. Adjust your strips, let dry then as for the previous step cut with a cutter the remaining ends.

Step 5
The bias thus placed on the front and the back of the sandal will stop the fraying of the wear fabric and highlight it.

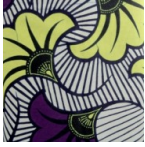

Step 6
Take 2 ready patterns, place each of them in the center of the fabric band. Glue them using an iron and protecting the pattern with another fabric.

Which material to use for Customize summer leather shoes with wax fabric?

SUPPLIES

Wax Fabric - Wedding Flowers - Violet / Yellow x20cm
Ref. : FABRIC-213
Quantity : 2

Lurex bias 20 mm Golden x 1m
Ref. : FCR-785
Quantity : 1
