*How to make trendy earrings?*

Make a pair of trendy earrings with all our imitation tortoiseshell finishes. Let yourself be guided by this very easy assembly where gold and tortoiseshell elements are combined. The warm color of these primers will allow you to wear this pair of earrings both summer and winter ensuring a chic and fashionable side.  
Step 1  
Take your 2 rings, the imitation tortoise shell and the fine golden mounting ring. Thread a 6mm end ring through the hole in the pendant ring and place the mounting ring on this pendant. Repeat for the second loop.

2nd step  
Stick your cabochons tortoiseshell on disc ear studs. Be careful not to trap the ring protruding from this support, place accordingly your cabochon so that we can suspend the rest of the primers.

Step 3  
Connect your elements by closing the ring that holds the pendant on the ring of the studs. Pass a ring of the same size in the hole of the golden tube and close this ring on the one which connects the part of the top to that of the bottom of the earring. Do the same for the other loop. Your jewel is finished but remember to let the glue for the cabochon at least 12 hours.
