

# ORGANZA BUTTERFLY NECKLACE, FIMO PASTE AND UV RESIN

By : Karine Barrera

Easy

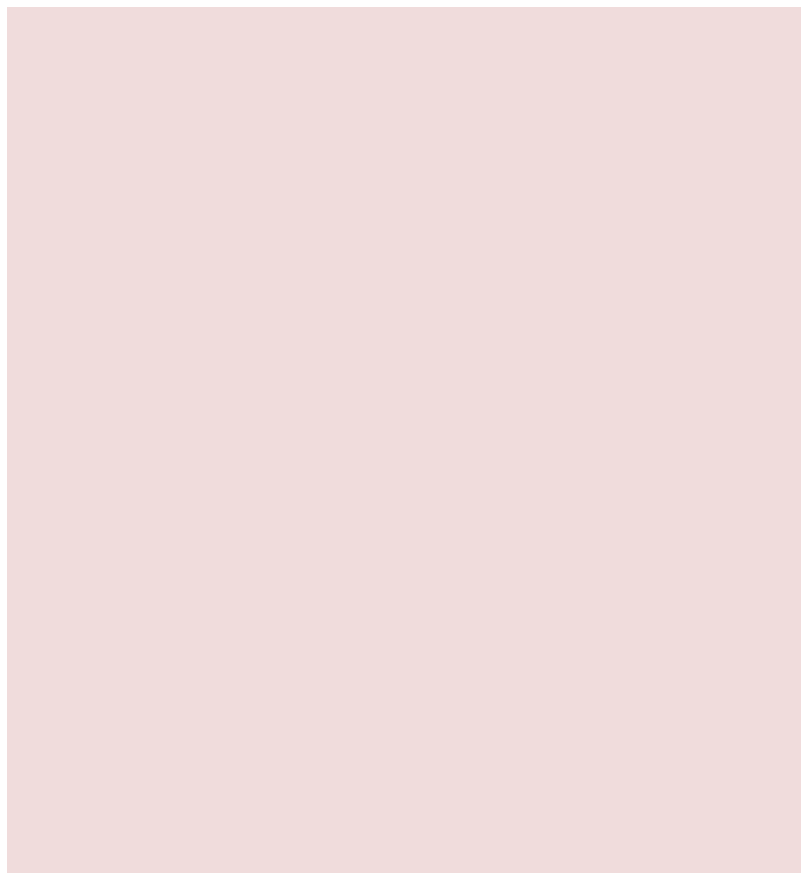

0 minutes

How to make jewelry with butterflies? You will find in this tutorial a step by step to create butterflies from a butterfly printed organza fabric then in support of the Fimo paste and for a glossy finish of the UV resin.

## Step 1

Take some white Fimo paste, spread it out with a roller or a baking machine. Choose a fairly fine or medium notch for the thickness of the dough. Put your organza butterfly on the dough and then roll it over to press it down and almost push it down.

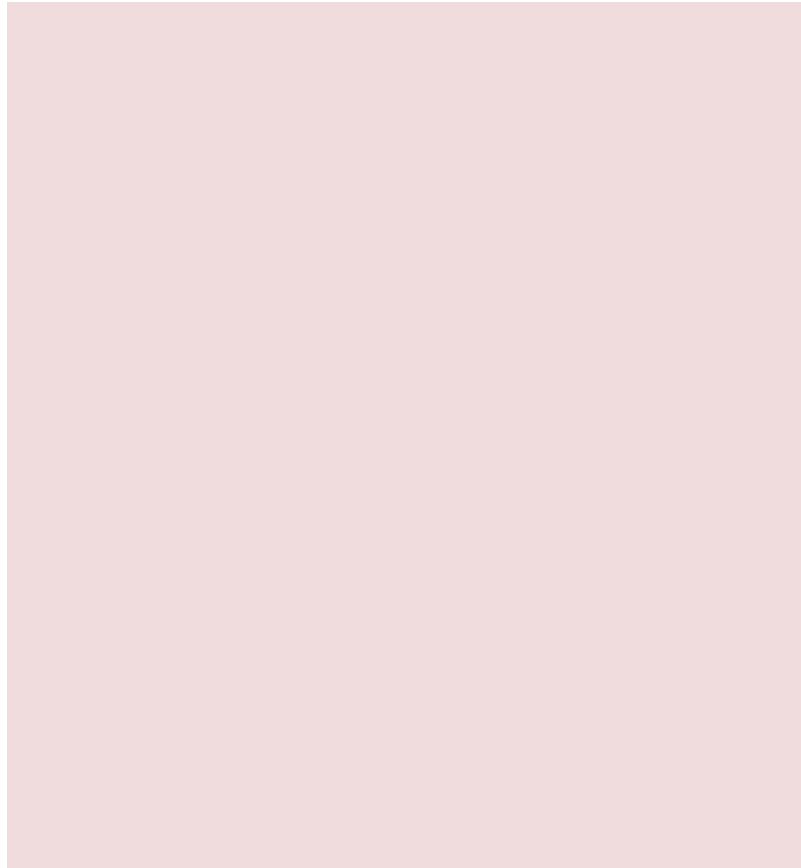

## 2nd step

With the help of a cutter cut out the edge of the butterfly. Lift the butterfly and then with your fingers smooth the too prominent edges of your cut.

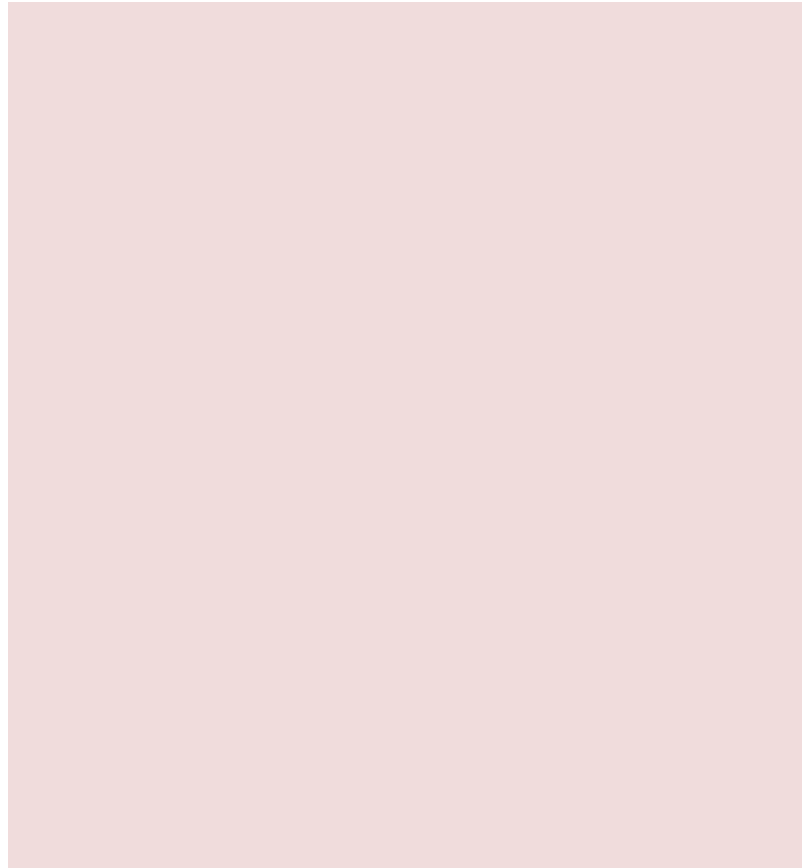

### Step 3

Scrape off a piece of dry pastel with the cutter to obtain a powder. Pass this powder on the borders either with your index finger or a brush. You can just as well do not do this step and paint with acrylic edges after baking.

Put your butterfly in the oven at 120 degrees for 30 minutes. The fabric will not be damaged!

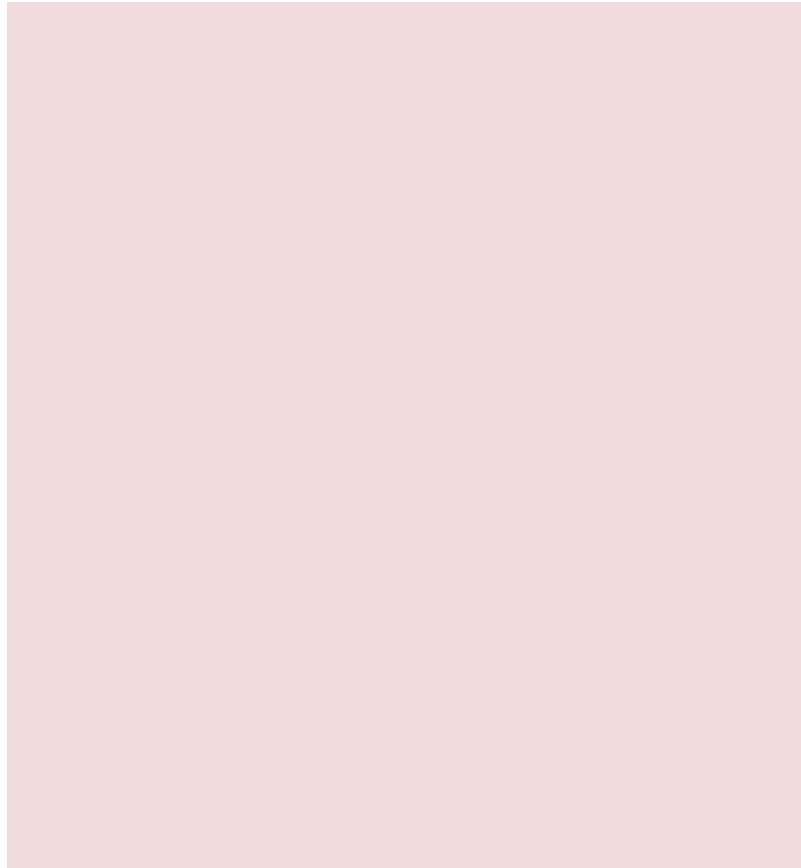

#### Step 4

Put a few drops of UV resin on the whole of the straw and then with a toothpick or other small tool spread the resin to the edges. Place the uv led lamp above the paillon press the button twice and wait 60 seconds. Wait two minutes before starting this step again. You can with this lamp use UV LED resin also, both work well.

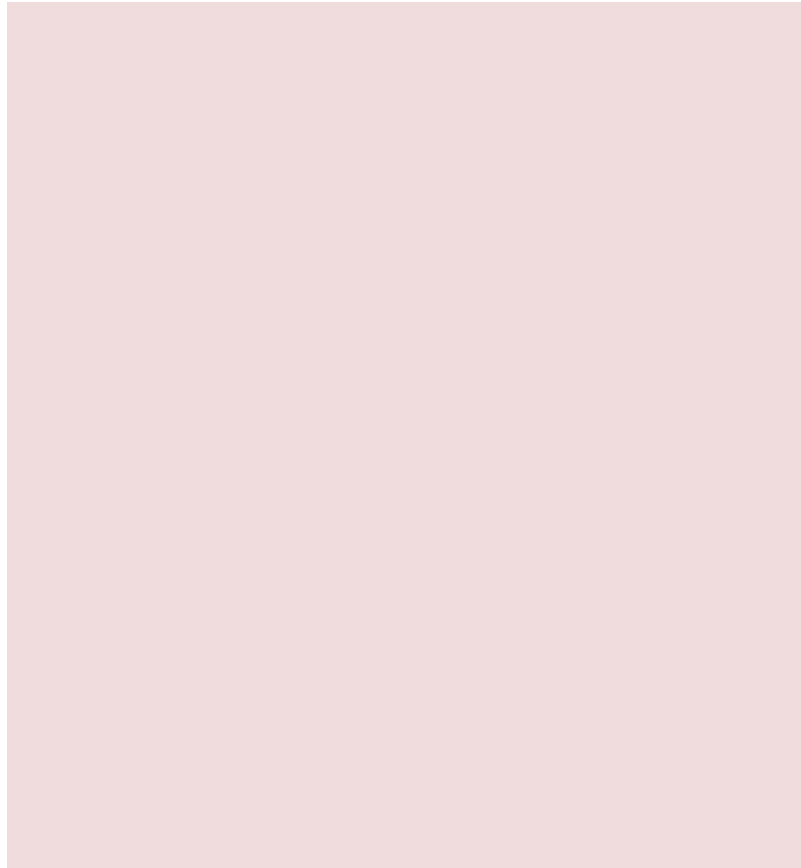

#### Step 5

Make sure the surface is dry and not sticky to pierce it. Use a forest of about 1.5 mm with a Dremel drill or a hand mandrel. You can cut a 2-part fabric butterfly to make matching earrings to your necklace using the same principle.

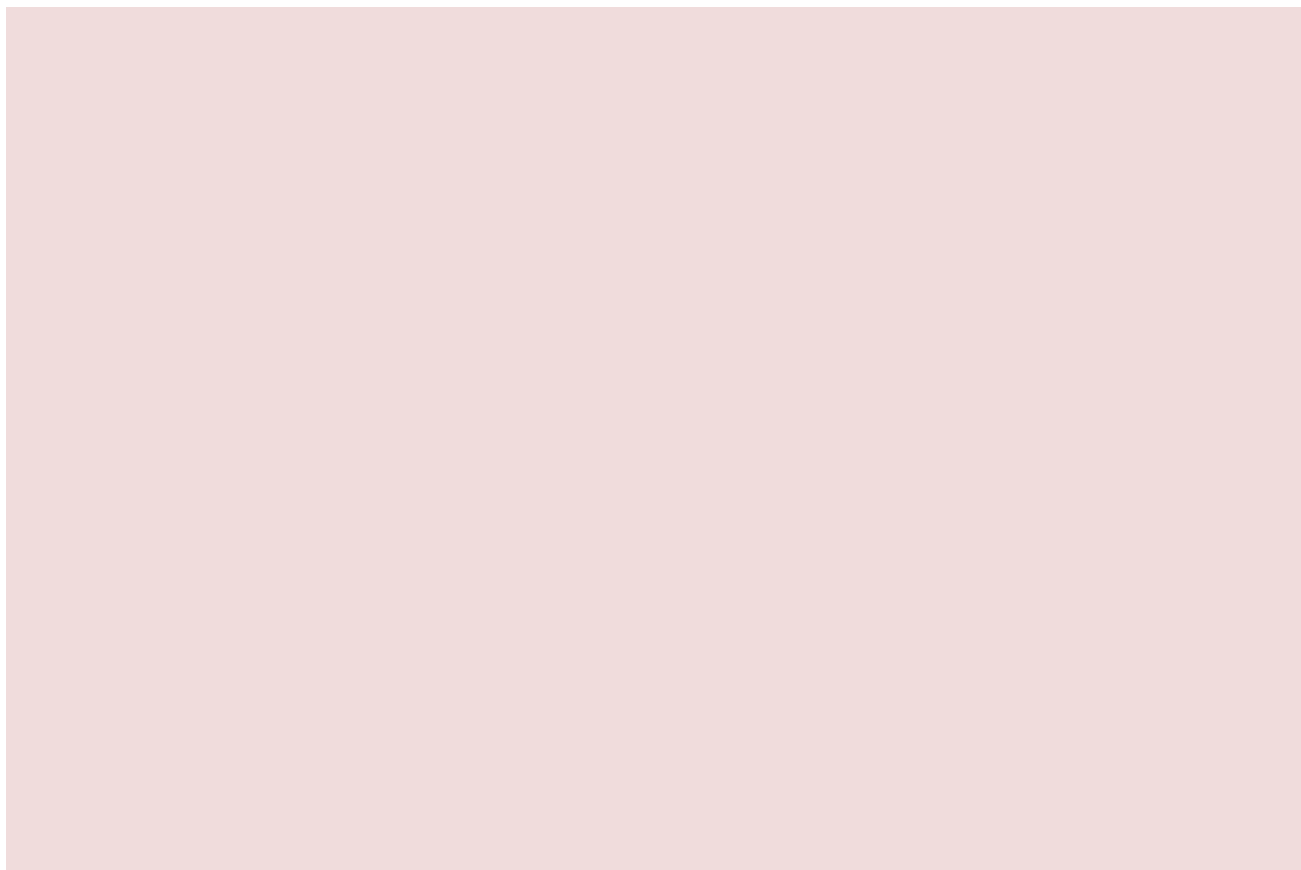

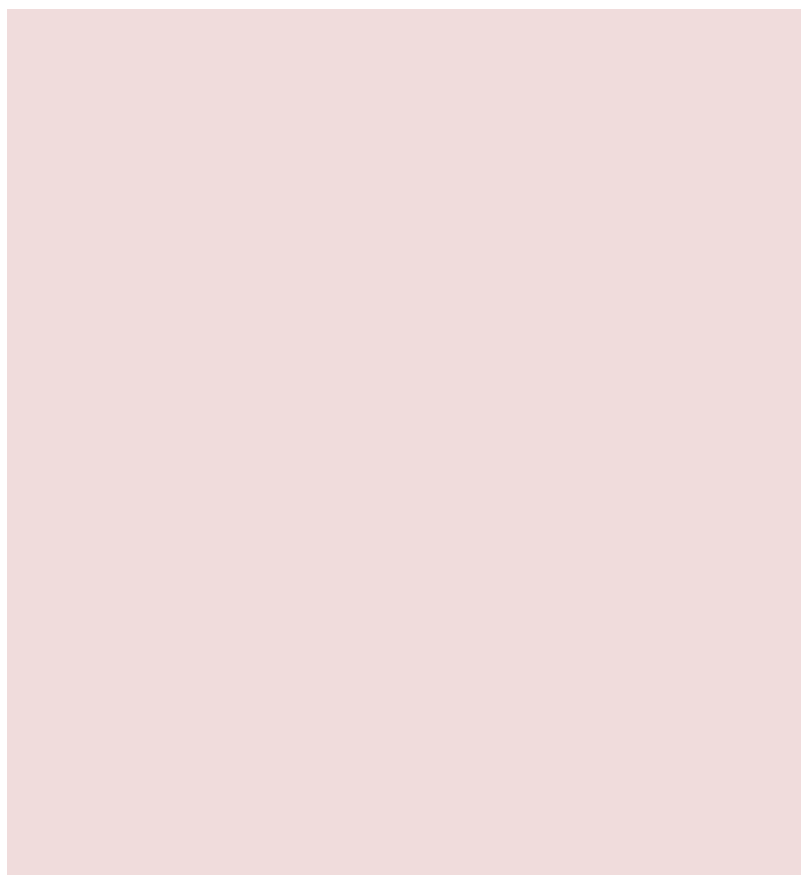

#### Step 6

Change the rings too small on the choker by replacing them with 5mm rings. Pass them through the butterfly hole and close them with pliers. Pass the same ring in the hole of the earrings then put the ring in the ear stud. Your adornment is over you can have fun making different butterflies, we have all sizes and colors that can be mounted in bracelet, brooch, hairpin.

# Which material to use for Organza butterfly necklace, Fimo paste and UV resin?

## SUPPLIES

5X0.7mm Open Jump Rings - European-made -fine Gold plated x50  
Ref. : ACC-396  
Quantity : 1

Half ball earstuds 4mm fine Gold plated x4  
Ref. : BO-028  
Quantity : 1

Fimo Soft Polymer Clay 57gr White (n°0)  
Ref. : FIMO-000  
Quantity : 1

UV resin Padico - hard resin x5gr  
Ref. : OTL-045  
Quantity : 1

Assortment of 12 soft pastels chalks Karat - STAEDTLER  
Ref. : OUTIL-942  
Quantity : 1

Chain mesh choker 1.3 mm - Gold Plated 3 microns x42 cm  
Ref. : TDC-303  
Quantity : 1

Mini UV LED lamp for DIY creation with UV LED resin x1  
Ref. : TECH-118  
Quantity : 1

Precise Cutter with ergonomic handle all supports  
Ref. : TOOL-577  
Quantity : 1

Butterfly without hole 50x35 mm Blue/Green x1  
Ref. : UME-128  
Quantity : 2
