

## NECKLACE WITH SLICE IN POLYMER CLAY CERNIT AND TAGUA SEEDS

By : Karine Barrera

Easy

5h

An ethnic necklace created from polymer clay and Tagua seeds... what do you think? Tagua is a vegetable ivory made from palm seeds. The seeds are cut into pieces and dyed in the mass, creating a multitude of beads in bright, tangy colors. This is a simple tutorial, but it will take a little time to create all the CERNIT clay strips.

It's up to you to choose and combine the colors you like.

NB: Please note that the list of products below does not entirely correspond to the presentation photo. For stock reasons, some products in this tutorial have been replaced by equivalents. The white tagua seed has been replaced by another color.

Which material to use for Necklace with slice in Polymer clay CERNIT and Tagua seeds?

## SUPPLIES

10mm Ribbon crimp ends - Bronze tone x2  
Ref. : ACC-284  
Quantity : 1

Cernit Number One 56gr Champagne half opaque(n°045)  
Ref. : CERNIT-056  
Quantity : 1

Cernit Number One 250gr Brown (n°800)  
Ref. : CERNIT-077  
Quantity : 1

Beading wire Gold tone 7 strands 0.46 mm x 9,2 m  
Ref. : FC-009  
Quantity : 1

Ultra Suede lace 3x1.3mm Marron x 2.8m  
Ref. : FC-632  
Quantity : 1

Fimo Soft Polymer Clay 57gr Caramel (n°7)  
Ref. : FIMO-007  
Quantity : 1

Metal beads Big holes bronze tone 9mm x5  
Ref. : MET-305  
Quantity : 2

Jumprings open 6x1mm Bronze tone x50  
Ref. : OAC-1164  
Quantity : 1

Double jumprings 8x0.7mm Bronze tone x50  
Ref. : OAC-426  
Quantity : 1

Kit cutter Kemper Round x5  
Ref. : OUT-163  
Quantity : 1

Worked tagua seed 35-50 mm burgundy x 1  
Ref. : TAGU-057  
Quantity : 1

Toggle clasp 20mm Bronze tone x1  
Ref. : TOG-221  
Quantity : 1
