How to include flowers in resin?

How to include plants in jewelry?

Making inclusions of flowers or leaves in resin requires a certain amount of preparation beforehand. Your plants need to be dry, and for the following tutorial, you'll need to dry them in a book for a few days. We need flattened plants, as we'll be making a 2-3 mm thick piece.

If you can't find what you're looking for in your garden, or simply don't have easy access to plants other than grass (:D), you can find our full range of [dried flowers](#) and [leaves](#) on the site!

As you know, at Perles&Co we're a bit curious... so don't hesitate to show us the results of your creations by sharing a photo of them with us on our social networks: [our Facebook page](#) and [our Instagram page](#).

Which material to use for Resin vegetable bracelet uv led?

SUPPLIES

Jonc bracelet 2 loops 16 cm in Gold filled x1
Ref. : GLD-100
Quantity : 1

Gold filled jump rings open 6 x 0.6mm x10
Ref. : GLD-264
Quantity : 1

Gold filled Closed Ring 16 mm x1
Ref. : GLD-314
Quantity : 1
