

## DIY MINI PINK GOLD FEATHER EARRINGS AND MIYUKI

By : Tiffanie Perles&Co

Easy

0 minutes

#### How to make earrings with feathers?

With this jewel tutorial you will learn how to make your own custom feather earrings. Then add them to an interlayer or directly to ear hooks. Create small homemade feather charms or create long feather earrings in Native American style. Choose from dozens of feather colors ! You will necessarily find the color that will suit you to create feather jewelry with tips . In this jewel tutorial you will also use exclusive fan dividers designed by the Perles & Co team! These inserts are also available in gold and silver. You can customize them by weaving Miyuki delicas pearls in the interstices. You can also add small facets of bohemian pearls or pearls PureCrystal 2 mm .

##### Step 1 :

Choose your feathers according to the color and type of earrings you want. You will have to cut them to create very small feather charms, so choose plumes of plain color, without details because it would be a shame to cut them. Cut the feather a few inches from the tip. It is important that the center of the pen is visible and strong enough to handle easily. Detach the sides of the feather that do not fit the rod. Then cut the bottom of the feather point by removing the tip of at least 1 cm. Use sharp scissors.

##### 2nd step :

Cut the 10 feathers to the same length. On the model, the feathers are about 1.2 cm long. Flatten the ball chain tips slightly to make it easier to keep the feathers in place when you insert them into the tip. Put jewelry glue in the mouthpiece, carefully place the pen in it and close the tip with your fingers or a flat nose pliers. Do the same for the 9 other feathers.

##### Step 3:

To weave the center part of the fan spacer, use wire and a needle. Cut about 20 cm of thread and thread it on the needle. Pass the needle through one of the two round holes in the center. Hold the end of the wire so that it does not cross. Thread the beads and go through the hole opposite. Return to the first hole. Go back to the pearls and the second hole. Repeat this step one or two more times, then tie the two parts together and put the two threads back into the beads. Put a dab of glue on the knot.

##### Step 4:

Add the feathers to the interlayer using 3mm open rings. You may need to straighten the ball chain ends so that the two holes are aligned. Then attach the pink golden fan and ear hook ring. Your earrings are finished! You can use this same technique to create your feather jewelry!

## Which material to use for DIY mini pink gold feather earrings and Miyuki?

### SUPPLIES

3x0.5mm Open Jump Rings - European-made - Rose Gold Tone x50  
Ref. : ACC-338  
Quantity : 1
