How to make earrings with rolled beads?

Want to go back to the 80s? Discover this DIY retro chic jewelry and learn how to make drop earrings decorated with seed beads Miyuki 15/0. This is a very easy tutorial that requires very little knowledge of weaving. Indeed thanks to this little trick you will realize tubes of pearls in no time without knowing how to weave ! This technique can be used to cover other shapes or create maxi creoles decorated with pearls (add a little glue at the beginning of step 2 and at the end to hold the beads in place on the creoles).

Find the list of materials at the bottom of the page. This list contains the material for the realization of the two pairs of earrings.

Red and golden version:

Step 1 :

Cut about 1 meter of weaving thread. Pass it over a needle and knot the end of the thread on the top of the brass drop tab with a double knot. Thread about 15 cm of beads on the wire. Spend 3 times in the last bead strung as if it were a bead of maintenance. This will keep the beads in place for the next step.

2nd step :

Wrap the bead thread around the interlayer, tightening the beads tightly around each turn. Once all the beads have been wrapped, put on another 15 cm of beads and repeat steps 1 and 2. Continue until you have covered the entire interlayer. Tip: For a random mix of pearls, make lots of pearls by color and go in with the needle without worrying about the number of pearls threaded. You can also mix the piles to only go in one.

Step 3:

Make a double knot with the beginning piece of thread and then go through the previous beads to hide the thread. Cut it flush with pearls. Do the same with the other end of the wire.

Step 4:

For the beaded nail section, cut a new thread if the one you have left is less than 30 cm and put it on a needle. Thread 4 rockeries, spend a second time in the set of pearls and a third time in the first pearl.

Step 5:

Prick in suede, being careful not to be too close to the edge. Repeat on the back a few millimeters to return to the pearl. Thread a new rock and go into the second pearl of the first round. Thread a rock and go into the third pearl of the first round. Prick in the suede then come back to the front to attach the third pearl to the suede also. Fill in the other two spaces between the beads of the first round with rockeries.

Step 6:

Prick in suede, being careful not to be too close to the edge. Repeat on the back a few millimeters to return to the pearl. Thread a new rock and go into the second pearl of the first round. Thread a rock and go into the third pearl of the first round. Prick in the suede then come back to the front to attach the third pearl to the suede also. Fill in the other two spaces between the beads of the first round with rockeries.

Step 7:

Thread 17 seed beads and go through the first one again to form a loop. Plate the loop well against the beading suede. Sew the first pearl in suede. Pass through the next 4 beads and sew the last one to the suede. Continue until you have fixed the circle.

Step 8:

Thread 27 seed beads for the next circle and secure it as in the previous step. Do the same for the last circle of 37 beads. Tie the thread on the back using the already woven thread or suede. Make a double knot and cut the thread. Do the same with the other end of the wire.

Step 9:

Cut the suede around the beads, taking care not to cut the sewing thread. Stick the suede on the nail tray.

Step 10:

Open the ring and slide the spacer in and out the ring of the nail. Close the nail.
