How to make your own earrings?

How to make leopard earrings with a mother of pearl and a fringed braid?

This autumn-winter the big trend is obviously the leopard! In pendant, in bracelet but also in earrings this motif accessorizes your outfits.

We offer a DIY tutorial to make your own earrings, customize your jewelry to suit your desires with all our references.

Find the list of materials at the end of this article!

Step 1

Cut a piece of black fringe trim to cover the back of the leopard-print mother-of-pearl pencil.

2nd step

Apply glue on the braid and then stick it on the back of the puck, leaving the fringes well beyond.

Step 3

Insert the golden flat head nail into the puck then cut out leaving about 1 centimeter to form a medium size loop. Do not close the loop completely.

You can find our technical sheet "[How to form a loop on a nail or a rod for jewelry](#)".

We advise you to add [a 3-in-1 multi-function pliers](#) to this step. It will allow you to cut the nail cleanly and wind the stem easily.

Step 3

Before closing the buckle, hang the round stud with black onyx imitation stone and then the wrinkled sequin and close the buckle.

Step 4

Repeat the process to make the second earring!

To wear with a pretty khaki jacket for a guaranteed safari effect!

Which material to use for Snow leopard earrings, fringed braid and gold crinkled sequin?

SUPPLIES
