How to make a circular peyote bracelet?

How to make a peyote bracelet with Miyuki beads?

After having tested the Peyote Pair, the Peyote Impair and the circular Peyote here is a new variant of Peyote. Discover the circular tubular Peyote ! This tutorial is for experienced beaders because it requires some basic knowledge of weaving. If you are a beginner, try the even, odd and circular Peyote first before you start!

What is the circular tube Peyote ?

It is the same technique as the circular Peyote, however, thanks to the use of pearls of different sizes it will be possible to fold the weaving to form a ring or, as here, a bracelet. For more solidity and so that the bracelet keeps well that form of ring, one will place a metal rush inside.

Create bracelets of different colors and stack them for a stacking effect. You can also add more metal bracelets. Choose your colors from our [/Perles-facettees-Rondes-aplaties-facettees-c-2626\\_40\\_1240\\_2960.html?filters%5B6%5D=3](/Perles-facettees-Rondes-aplaties-facettees-c-2626_40_1240_2960.html?filters%5B6%5D=3) flattened facets 3x2 mm, our [/miyuki-miyuki-delica-110-c-55\\_369\\_984.html](/miyuki-miyuki-delica-110-c-55_369_984.html) delicas beads 11/0 and our [/miyuki-rocaille-miyuki-150-c-55\\_369\\_267.html](/miyuki-rocaille-miyuki-150-c-55_369_267.html) Miyuki curls 15/0.
