#### *How to make napkin rings?*

Make a polymer clay napkin ring following our easy tutorial. Initially, napkin rings were a practical accessory for storing your napkin between meals, but today they're a pretty decorative object that adorns the table for special occasions and small. They can be placed on the plate or next to the cutlery. They'll give an aesthetic finish to your table decor, or add a discreet touch of color to a white table.

Make personalized napkin rings by choosing a color for each member of your family. That way, they won't confuse their napkin with someone else's. On our site, you'll find a wide choice of Fimo clay and Cernit clay, in vibrant colors or pastel shades. Choose their favorite color!

For weddings, ceremonies or any special occasion, each guest can keep his or her DIY napkin ring as a souvenir of the day.

A little tip before you start: don't forget to keep a roll of toilet paper! It will help the polymer clay retain its round shape during baking.
