You look for a gift idea for men, here is a bracelet to make on an elastic thread with pierced gemstones . We chose Indian agates, these stones are of different colors with several kinds of greens but also very clear pearls and others a little garnet. Some lava beads are added to give a sober and matte effect that will bring out the Indian stones that are brilliant. Some silver beads are used, small Budhas and cubic beads.

Thread on the elastic thread 3 Indian pearls, a cubic pearl then 2 Indian pearls, a lava pearl, a boudha and another lava stone. Repeat this sequence 3 times. To make a solid knot on elastic thread you have to make a surgeon knot here is a video link that you can watch to [learn how to make this knot](#) .
