How to decorate a weaving ring with Miyuki pearls?

Learn how to weave Miyuki delicas 11/0 beads on our ready-to-weave bracelets. This model allows you to put 3 beads delicas 11/0 per row. There is also a [silver version](#). We offer a model of weaving grid for this bracelet. Adapt this model to your style by choosing your colors of pearls and patterns.

This tutorial shows you how to weave these bracelets. This method is adaptable for all other models of weaving rods.

Find other tutorials of the same style below:

Diagram bracelet:

Step 1 :
Cut 1 m of weaving thread, put it on a needle and put a bead on the end. To do this, put on any bead and place it 10 cm from the end of the thread. Iron in the bead twice in the same direction. Pass the needle through one of the outer holes of the bracelet from the inside.

2nd step :
Thread 3 Miyuki Delicas 11/0. Go through the hole opposite to fix the beads on the bracelet. Iron in the beads and make a double knot with the two pieces of thread.

Step 3 :
Go to the next hole from the inside. Thread 3 beads, go through the hole from below, go back into the pearls, into the hole from above through the inside, into the beads and into the hole from below through the outside.

Step 4 :
Go to the hole next door and put on 3 beads again. Repeat the previous operation until you have set all the beads. Finish with a double knot with the already woven threads. Then take all the threads into the beads and cut them.

Step 5 :
Make a small triangle in Brick Stitch weave and glue it with jewelry glue in the center of the bracelet. If you do not know Brick Stitch weaving, here are some factsheets to help you "[How to start a Brick Stitch weave?](#)". You can also stick a [gemstone cabochon](#) instead.

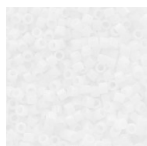

Which material to use for Blue and gold Miyuki delicas woven beaded ring?
