*How to make a unisex leather bracelet?*

How to make a unisex leather bracelet ?

Valentine's Day DIY idea : Create Assorted Leather Bracelets. Follow this minute jewel tutorial to create one or two leather bracelets. The silver plunger will fit both a man and a woman and you have a large number of color choices from our selection of 10mm leather lace . However, if you do not like this feather, choose other 10mm laces in our catalog. Be careful to take laces whose thickness is compatible with the pusher. Remember to check it on the product page.

Step 1 :

You will need the size of the wrist of the person who will wear the bracelet. Add 1 cm to this length. Cut 1 piece of leather lace of this size. Here we cut 1 piece of 18 cm for a very thin man wrist. Cut the ends very straight. Cut the edges of the top and bottom of the end so that you can slide the leather into the magnetic clasp more easily because it is a little thick.

2nd step :

Slide the feather pusher onto the leather lace. Put glue in one of the slots of the clasp and place the end of the lace in forcing. Wait until the glue dries before making the second side. You can put a dab of glue on the back of the pusher to prevent it from slipping on the lace.

Feel free to show your creations on our Facebook page, in the Perles & Co customer's Super Club group or on Instagram @perlesandco.

## Which material to use for Unisex Leather Bracelet Silver Feather Magnetic Clasp?

### SUPPLIES

Leather lace 10mm Grey x30cm  
Ref. : FCR-096
