How to make a braided leather bracelet?

How to make a braided leather bracelet?

Need a DIY gift idea for men for Valentine's Day , a birthday or Christmas? Here is a quick leather bracelet tutorial to make, easy and inexpensive. No need for special tools such as jewelry clips or other tools for leather work, you just need a pair of scissors and jewelry glue. For the rest a magnetic clasp and 3 mm leather lace .

If you want to make a simpler bracelet without braids, we recommend using laces and magnetic clasps.

Step 1 :

Cut 5 pieces of leather 35 cm and stick them in the clasp. Wait until the glue is dry before continuing to braid the bracelet.

2nd step :

Follow the video to learn how to make a 5-strand leather braid. Measure the wrist size of the person who will wear the leather strap and add 1.5 cm to 2 cm to this measurement by counting the clasp.

Step 3:

Cut off the excess leather and stick the ends in the other part of the clasp.

Your bracelet is finished! Check out other leather bracelet tutorials below:
