### *How to make golden shell earrings ?*

We love seashell jewelry. They remind us of the sea, sandy beaches, the heat of summer, idleness... in short, vacations! But don't wait until summer to wear them, they're also a great way to boost a winter outfit, when the weather is cold and gloomy.

In this easy tutorial, make original earrings with these golden shell-shaped pendants. This year, you won't want to miss out on the seashell jewelry trend that's on everyone's lips. The princess cut pendant is layered with PureCrystal, adding sparkle and a touch of color. The color chosen, Crystal AB, gives the jewel a spirit of both luxury and softness. The reminder of the shell on the sleeper completes the look.

No need to know jeweler's techniques on your fingers, as this is a simple assembly. Open the junction rings with pliers, connect the jewelry components together and close the rings... Clack, clack, and you're done!

As you know, at Perles&Co we're a bit curious... so don't hesitate to show us the results of your creations by sharing a photo of your creations with us on social networks: our Facebook page and our Instagram account.
