How to make little creoles with Heishi washers ?

DIY small earrings are in the spotlight at Perles and Co. The month of March 2019 is dedicated to small earrings to wear alone or accumulation if you have several earholes. Discover our other mini stacking earrings tutorials.

Here is a model of mini creoles that will dress your sober black or white outfits. Wear them as well with your everyday clothes or even for parties.

These small gold earrings with black and white washers are extremely easy to make. You can adapt this model to your wishes by taking for example the same [25 mm creoles in silver](#) or by choosing another color among our washers Heishi and pierced gemstones . Also find [silver separators](#) .

The Heishi washers used here are synthetic. They are made of a material similar to the polymer clay. If the polymer clay intrigues you, discover also this little [tutorial of creole flowers made of polymer clay](#) and introduce yourself to this DIY technique of modeling , you can then make your own Heishi washers.

In order not to risk losing the pearls when you put on and remove the creoles you can possibly add [stopper beads](#). You will need four. You can also pick up hitchhikers.

Step 1 :

With a flat-nose pliers, if possible with a silicone tip, fold the tongue of the creoles so that it is a little flatter. Thread the pearls.

2nd step :

Fold the end of the creole again so that the folded end is a little longer than the original so that the earrings open less easily. Do not hesitate to add a little stopper more.

Feel free to show your creations on our Facebook page, in the Perles & Co customer's Super Club group or on Instagram @perlesandco.

Which material to use for Mini Hoops with Heishi Dalmatian Washers and Matte Onyx Stone?
