How to make a felt mask?

How to make a felt mask easily?

This video tutorial shows you how to make a seamless felt fox mask. With this free model of fox mask you can make an easy and quick disguise in just 1 hour. Here is a disguise idea for your children or for yourself. If you do not have time to build the rest of the disguise, you can dress in orange, white and black and the mask will do the rest.

This felted felted mask can be used in other animals. Other ideas of masks if you know how to draw: a teddy bear, a panda, a cat, a tiger or discover this tutorial to [make a raven mask out of paper](#).

The felt is very thick and allows a good behavior both rigid and flexible mask. Discover all our [felt sheets for DIY creation](#).

Step 1 :

Download the [free fox mask template](#) . Print it twice and cut out the different parts of the mask to be able to trace and cut them in the felt.

2nd step :

Once the elements cut out, stick them one by one putting a good dose of glue. The glue feels very strong so choose an airy place for gluing. The smell disappears after about an hour.

Step 3:

Wait for the glue to dry then make holes on each side of the mask with a sharp scissors. Then put the elastic band in front of the mask and tie a knot on the back. Do the same thing on the other side.

You are now ready for the carnival!
